

Our Values and Beliefs

All staff and students strive to create a safe and welcoming environment in our learning spaces, hallways, washrooms, playgrounds, and school buses. These shared values of kindness, respect, and empathy provide a framework for our interactions with students and each other.

As a team of learners, we believe that positive, respectful relationships with our students are essential. A safe learning environment that allow students to have a voice, and choice leads to high engagement and buy-in.

We feel that instruction should be differentiated, and based in best practice. Teachers are the facilitators of learning, and collaboration between all members of the school community is key to ensure students receive the best care.

ROSSER SCHOOL

COMMUNITY REPORT 2020-2021

Rosser School

OUR SCHOOL

Rosser school is a Kindergarten to Grade 4 school with a current enrollment of 48 students. With 4 professional staff and 5 support staff, we provide quality public education to all of our students in a safe, positive, and respectful setting. Our staff strive everyday to meet the needs of all members of our school community.

OUR GOALS

Our 2020-2021 goals were centered around 2 focus areas: Numeracy & Wellness

Numeracy – building awareness for our students and parents of the connection between numeracy and the greater community; encouraging a growth mindset and belief that we are all “Math people.”

Wellness – promoting healthy living by incorporating strategies which support positive physical, mental, and emotional well-being.

OUR PROGRESS

Numeracy – we used our “November numbers” initiative to encourage our students and families to be talking, thinking, and participating in numeracy rich tasks. The activities consisted of a daily math problem, weekly estimation challenges, and weekly “make and take” math games.

Our staff participated in numeracy focused PD opportunities through the ISD continuous improvement plan numeracy sessions.

Wellness – as a staff we focused on classroom and school-wide community building. Our goal was to establish a culture of kindness and caring within our school. Classroom teachers integrated these themes into ELA and Social Studies lessons.

We are continuing to move towards a better awareness of “self-regulation,” by providing students with strategies on managing emotions and resolving conflicts in a healthy manner.

OUR THANKS

We would like to thank our entire school community for helping us to navigate the 2020-2021 school year. It was a challenging year as we continued to adapt to covid-19 guidelines, which included mask usage, social distancing, hand sanitizing, and an absence of guests in our building.

We are optimistic that we will return to some sort of normalcy in our school community for the 2021-2022 school year. We would again like to thank our school community for the support that we have received. As we look forward to next September our goals will remain intact with our school focus on numeracy and wellness.

Take care and have a safe and enjoyable summer.
