Our Values and Beliefs

All staff and students strive to create a safe and welcoming environment in our learning spaces, hallways, washrooms, playgrounds, and school buses.

These shared values of kindness, respect, and empathy provide a framework for our interactions with students and each other.

As a team of learners, we believe that positive, respectful relationships with our students are essential. A safe learning environment that allow students to have a voice and choice leads to high engagement and buy-in.

We feel that instruction should be differentiated and based in best practice. Teachers are the facilitators of learning, and collaboration between all members of the school community is key to ensuring students receive the best care.

Our School

Rosser school is a Kindergarten to Grade 4 school with a current enrolment of 48 students. With 4 professional staff and 5 support staff, we provide quality public education to all students in a safe, positive, and respectful setting. Our staff strive every day to meet the needs of all members of our school community.

Our Goals

2021-2022 goals were centred around 2 focus areas: Wellness & Numeracy

Wellness - promoting healthy living by incorporating strategies which support positive physical, mental, and emotional well-being.

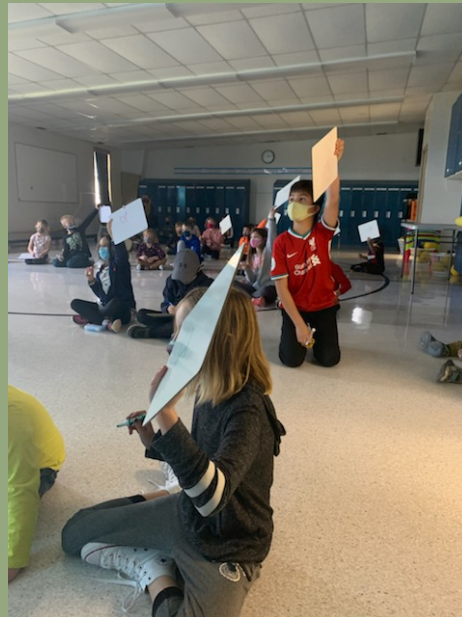

Numeracy - building awareness for our students and parents of the connection between numeracy and the greater community; encouraging a growth mindset and belief that we are all "Math people."

Wellness - as a staff we focused on classroom and school-wide community building. Our goal was to establish a culture of kindness and caring within our school. Classroom teachers integrated these themes into ELA and Social Studies lessons.

We are continuing to move towards a better awareness of "self-regulation," by providing students with strategies on managing emotions and resolving conflicts in a healthy manner.

Our Progress

Numeracy - we used our "November numbers" initiative to encourage our students and families to be talking, thinking, and participating in numeracy rich tasks. The activities consisted of a daily math problem, weekly estimation challenges, and weekly "make and take" math games.

Our staff participated in numeracy focused PD opportunities through the ISD continuous improvement plan numeracy sessions.

Our Thanks

We would like to thank our entire school community for their support during the 2021-2022 school year. Despite a few interruptions to our day-to-day operations as we adapted to pandemic restrictions, we were still able to maintain a safe and welcoming learning environment for our staff and students.

We are optimistic and excited for a return to "normal" in our school community for the 2022-2023 school year. As we look forward to next September, our school goals for well-being will remain intact, however our school focus will prioritize numeracy and literacy.

Take care and have a safe and enjoyable summer!
